

Medlock Primary PE and Sport Premium Statement

At Medlock Primary School, we strive to establish a sporting culture that enables and encourages children to play and enjoy a wide range of sporting pursuits. We believe that it is essential for children to develop knowledge, skills and understanding within a range of different areas as well as recognising the importance, through enjoyment, of an active healthy lifestyle. We also recognise the significance of competitive sport to our pupil's wider development including preparing them for their secondary education and later life.
